

7 CHILDREN. 7 STORIES.
(CRACKING THE CODE FOR AN EPIC LIFE)

Dear Reader,

You are invited to crack a code - one that will put you on the path to lead an epic life. Read this book closely. The code is composed of seven important words, and if you learn to live by them, you will be prepared to become what you desire.

Bryan Johnson

Life at Flint Hill Elementary School may seem normal, but seven friends soon find themselves on a path to crack the code for an epic life. Whether they're searching for an elusive monster fish, chasing their dreams on stage, or running a makeshift business out of a tree house, can these heroes find a way to work together to change their community?

"Johnson is a purposeful storyteller, and each of his seven tales embodies a different, important characteristic that a successful person should have."

Kirkus Reviews

"Code 7 is a staple for every school library and a valuable resource for educators who wish to grow motivated and socially responsible citizens in the classroom."

Charles Best, CEO, DonorsChoose.org

"This book is an inspiration to children who wish to pursue their passions and bring original ideas into the world."
